“Be Their Hero: Trauma Informed Care”

Keynote Speaker: Josh Varner

Keynote Sponsor: Care to Learn

School district leaders: this is your opportunity to dig deeper into the world of working with students who are facing personal obstacles that impact their learning (and how teachers can help them). Every challenging student has different needs to help them succeed in school.

In this presentation, we’ll examine common challenging situations and practice making plans to help students thrive by identifying their strengths and the cause of the behavior.

Josh Varner is a nationally known trauma-informed speaker and author with a passion for helping individuals and schools to support students who have been impacted by childhood trauma. Along with speaking, Josh has been a mental health professional, school counselor and coordinated an at-risk student program. Josh has experience in the classroom working with traumatized students and knows what will work for school leaders, teachers, administrators, and school communications professionals.

Special Note: Josh will stay after his keynote to lead a special breakout session “Dealing with Increased Stress in the Workplace.”
